

Auto Industry

Autocar Pro to host webinar on tackling the pandemic challenge on April 8, 2020

The Coronavirus outbreak has posed a never-before challenge to governments, societies and economies globally. Business in all sectors is facing a major crisis. In such a scenario, the automotive industry, a major contributor to the GDP of India, is facing its share of challenges.

From tackling the BS IV to BS VI transition in a scant three years, shifting as many activities as possible to the digital world, supporting customers, to doing engineering work and preparing for the future with as less as disruption as possible. The current phase is also a test of leadership, management practices and industry resilience too.

In view of the above, Autocar Professional is hosting special edition of a webinar on the theme, 'Rising to a Challenge – Business in the midst of a pandemic' to have a discussion and learn in a collaborative way about the strategies/approaches to weather the current storm better. [Read more](#)

SIAM is organising a webinar on 'Automotive industry: Impact of COVID-19 and Navigating the turbulence'

The Indian Automotive industry has been grappling with several challenges over the past couple of years. The recent COVID-19 outbreak has forced organisations to adapt new ways of working. Every crisis offers organisations an opportunity to introspect, work on themselves and emerge stronger.

To help you with an external perspective during this difficult time, SIAM is organising a webinar on 'Automotive industry: Impact of COVID-19 and Navigating the turbulence'. [Read more](#)
